S/M	L/XL
81-102cm	102-132cm

- » **IMMEDIATE & LONG-LASTING COOLING RELIEF** – Packs maintain constant 18° C for up to 2 hours
- » **QUICK RECHARGE** – Cooling packs (4) reactive in 5 minutes
- » **LIGHTWEIGHT** – 30%-60% lighter weight than other cooling vests
- » **GRID DESIGN** – Grid ice pack design eliminates stiffness
- » **FLEXIBLE FIT** – Adjustable hook and loop closures on waist
- » **EXTRA STORAGE** – Two zippered front pockets
- » **COMFORTABLE** – Polyester cotton blend construction
- » **WASH & REUSE** – Hand wash with mild detergent and warm water, dry with a paper towel or cloth – DO NOT machine wash or machine dry

Designed to be 30%-60% lighter weight than other cooling vests on the market, the **Ergodyne Chill-Its 6260 Lightweight Phase Change Cooling Vest with Ice Packs (4-Pack)** keeps workers cooler, safer and more productive. Its 100% biodegradable phase change cooling material maintains a 18° C temperature for up to two hours when activated. Constructed with a polyester cotton-blend fabric, the vest's adjustable hook and loop closures around the waist provide a customised fit for different body types. The heavy-duty front zipper makes for easy on/off, while the two front zippered pockets can be used to store cell phones and other small accessories. This body cooling vest is perfect for anyone in need of instant cooling relief while working outside or indoors in warm temperatures where heat-related illnesses like heat cramps, heat strokes, heat exhaustion, etc. are possible. Simply place the four removable packs in a cooler of ice water for 5 minutes or freezer for 8 minutes. Then place the recharged cooling packs in the vest pockets for hours of cooling. Ideal for those needing cooling relief but aren't able to use an evaporative cooling option.

**IMMEDIATE & LONG-LASTING COOLING RELIEF**

Packs maintain constant 18° C for up to 2 hours in all conditions

**LIGHTWEIGHT & COMFORTABLE**

30-60% lighter weight than other cooling vests

Polyester cotton blend can be worn over base layer, on its own or under other clothing

**COOLING PACKS QUICK RECHARGE**

Packs can be activated in 5-15 minutes in a cooler of ice water, fridge or freezer

**AVAILABLE IN 2 SIZES**
