The **Squids 3011 Retractable Tool Lanyard** is a lightweight and extremely durable tethering solution designed to mount to a D-ring user's belt or a separate anchor point. Using a retractable lanyard limits potential snag hazards compared to standard lanyards. This lanyard prevents tools weighing up to 3.6 kg from falling when working at-heights. The retractable tethering cord is made of high-strength, cut-resistant Dyneema with a protective sleeve over the exposed cord to reduce wear and tear for a longer life. The durable ABS plastic housing is textured for better grip and is designed to protect the internal workings of the retractable. Featuring a tapered cord exit to limit the debris being retracted back into the housing with the cord. Even with its incredible durability, this heavy-duty retractable lanyard weighs less than 0.23kg and measures 122cm when fully extended.

**SECURE HAND TOOLS AT HEIGHTS**
