

COOLING PPE INNOVATION

Chill-Its
COOLING SOLUTIONS

DRY EVAPORATIVE TECHNOLOGY

PATENTED DRY EVAPORATIVE COOLING PROVIDES AN INNOVATIVE AND EFFECTIVE ALTERNATIVE TO THOSE LOOKING FOR:

1 // A 100% DRY COOLING EXPERIENCE

2 // LIGHTWEIGHT, EFFECTIVE & LOW-PROFILE

3 // EXTENDED COOLING UP TO 3 DAYS

4 // LOW MAINTENANCE & EASY-TO-USE

The principles of dry evaporation are similar to wet evaporation in that the cooling process is activated by water and airflow. Body heat and the surrounding air will cause the water within the vest to evaporate – cooling the wearer down.

Chill-Its
COOLING SOLUTIONS

**6685
PREMIUM DRY
