

Dropped Object Consequence Calculator

This **GUIDE** assumes that full PPE is being worn and is intended as a common benchmark in the classification of the potential consequences of a dropped object

KEY	SLIGHT	MINOR	MAJOR	FATALITY
DESCRIPTION	A First Aid Case where there is limited or no injury and the treatment required may be limited to first aid.	A Medical Treatment Case where a work-related injury occurs that does not result in death, lost work time, restricted work or job transfer, and where the employee receives medical treatment beyond first aid.	A Lost Time Incident where there is a non-fatal traumatic injury that results in any loss of work time beyond the day or shift it occurred. This incident is also known as a Day Away From Work Case (DAFWC).	An occurrence resulting in death caused by injury or trauma.
