

SPECIALTY WORKWEAR

Heat & Hydration

Chill-Its 6716 Evaporative Cooling Hard Hat Liner

- » **INSTANT COOLING RELIEF** - Polymer cooling technology quickly activates for up to four hours of relief from the heat
- » **FITS MOST HARD HATS & SAFETY HELMETS** - Hook & loop closures securely attach to forehead of suspension
- » **LOW-PROFILE & COMFORTABLE** - For no-bulk wear with hard hats and 100% cotton
- » **REUSABLE** - Simply re-wet to reactivate cooling
- » **HAND WASH** - Hand wash and completely dry in open air

The **Ergodyne Chill-Its 6716 Evaporative Cooling Hard Hat Liner** straps into hard hats to deliver four hours of cooling relief. The low-profile and lightweight liner features cooling acrylic polymers for instant cooling without bulk or slime, making it comfortable to wear with hard hats. This hard hat sweatband fits most hard hats and safety helmets, easily and securely attaching to the forehead of the suspension with three hook and loop closures. Heat-related illness continuously ranks among the top causes of worksite accidents and fatalities. Evaporative cooling technologies such as polymer crystals are a simple, effective and comfortable solution for heat stress prevention. Similar to how sweat cools the body, evaporative technologies use an external water source to draw heat away—helping to regulate body temperature while providing cool relief. When activated, this cooling hard hat pad is comfortable and refreshing for even the hottest days of the year.

UP TO 4 HOURS OF COOLING

WATER ACTIVATED

CLEAN/REUSE
Hand Wash Only

COOLING HARD HAT LINER

3 hook and loop straps secure to suspension

Easily attaches to most hard hats to keep workers cool

EVAPORATIVE COOLING TECHNOLOGY WORKS FOR UP TO 4 HOURS

Evaporation

Airflow

Water

Acrylic polymers

Cools body

Acrylic polymer crystals easily activate for cool relief on hot days

QUICK ACTIVATION & RE-ACTIVATION

Soak in water for 2-5 minutes to activate cooling technology

PERFECT FOR WORK

4.8cm

33.7cm

Simple, effective and comfortable solution for heat stress prevention

Soak in water for 2-5 minutes to activate. The polymer crystals will retain water for up to four hours of cooling relief. Be careful not to over activate as that may cause the sweatband to “plump up” to a size where it is no longer able to be comfortably worn. To reactivate cooling, simply re-wet. Ideal for mining, construction, telecommunications or anyone wearing head protection while working in the heat.

Hard Hat not included

DIMENSIONS
4.8cm x 33.7cm
