Step 4/ Before you lift - grasp the outer elastic bands and as possible.

- STRETCHABLE SPANDEX Economical 280D spandex body
- NON-CONDUCTIVE Polypropylene stays for long-lasting integrity
- SUSPENDERS Adjustable, detachable suspenders keep belt
- **SECURE FIT** Rubber track webbing prevents riding up
- **SIZING** Waist size ranges from 64cm 147cm

The ProFlex 100 Economy Spandex Back Support is designed to remind workers of proper lifting techniques while also enhancing the body's intra-abdominal pressure, moving the stress away from the spine for back pain relief. Features rubber track webbing to help keep support in position. To choose your size, use flexible measuring tape and find the circumference around your body at your belly button. The support should fit snugly around your hips with the front of the support twofingers width below your navel. An easy-to-use hook and loop closure keeps the belt securely fastened while in use and can be worn over or underneath clothing. Tightening the back support belt enhances the body's intra-abdominal pressure and moves the stress away from the spine. When the back support is on correctly, the worker will have additional support for lifting and is more likely to use proper posture.
