The **Ergodyne ProFlex 367 Lightweight Gel Knee Pads** feature a rounded cap for the highest degree of mobility, keeping knees protected when rocking and leaning. The lightweight gel and EVA foam padding provides comfort and support without the bulk of heavier knee pads.

The textured non-slip rubber cap securely grips floors for added stability. The buckle and hook and loop closure securely attach to keep knee pads from sliding around or coming undone. The stretchable neoprene and elastic leg straps easily adjust for a custom fit on a variety of leg sizes. To further boost comfort, the neoprene strap is perforated to improve airflow and prevent sweat behind the knees.

Ideal for workers wanting all-day knee protection plus enhanced mobility on a variety of worksites, including construction, HVAC, flooring, landscaping and more. With the Ergodyne ProFlex 367 Lightweight Gel Knee Pads, you can work comfortably and safely, making this knee protection the perfect choice for construction, masonry, freight/baggage, flooring, maintenance, utilities, carpentry and mining.
