- » **WASHABLE** – Hand wash and dry with mild soap and water

The **Squids 3137 Padded Barcode Scanner Sling Lanyard** is designed to keep barcode scanners secure and accessible. This industrial-grade scanner sash lanyard is built with a heavy-duty webbing strap for work in the harshest environments. Airprene shoulder padding provides long lasting comfort, while a hook and loop breakaway design allows the sling to safely detach from the worker in emergency situations. Two small loop attachments on the lanyard easily connect and disconnect to small captive holes built into cordless scanners. For increased visibility in busy distribution centers and warehouses, the scanner sling has hi-vis and reflective striping. One-size-fits-all, the webbing strap is adjustable to fit a variety of workers. This sling lanyard prevents expensive scanners from being dropped, causing damage to the scanner, other items/equipment or workers on the job.
