

FALL PROTECTION & HAZARDS

Tool Lanyards

Squids 3150 Elastic Tool Lanyard with Buckle

- » **MEETS ANSI/ISEA 121-2018** – Third-party certified to 0.9kg maximum working capacity with a 2:1 safety factor
- » **EASILY TETHER ANY HARD HAT** – Connects to hard hat accessory slot or suspension to prevent drops
- » **DOUBLE-LOCK BUCKLE** – Securely clips around captive connection points on fall protection harnesses, safety vests, tool belts, d-rings, etc.
- » **HIGH-STRETCH ELASTIC LANYARD** – Reduces jarring on worker in event of a drop
- » **VERSATILE** – Can also be used to tether hand tools or other gear weighing 0.9kg or less

The **Squids 3150 Elastic Hard Hat Lanyard with Buckle** securely tethers hard hats, small hand tools and tape measures to prevent them from becoming dangerous dropped objects when working at heights. A durable double-lock buckle makes for easy anchoring, while high-stretch elastic reduces jarring on the worker in the event of a drop. Tested and approved to ANSI/ISEA 121 for dropped object prevention. Compatible with all hard hats, this safety lanyard can be easily connected via the accessory slot or suspension. It can also be used for tethering hand tools or other small gear. Ideal for construction, telecom, oil and gas, power generation, utilities, wind, manufacturing, municipalities and scaffolding.

Thread the open end of the lanyard through the hard hat accessory slot or suspension and back through the clamp, closing tightly for a secure connection. To anchor, clip the buckle end around a reliable connection point on the worker (fall protection harness, safety vest strap, tool belt, d-ring, etc.).

Hard Hat not included

<p>WORKING LENGTHS 46cm - 122cm</p>	<p>WEIGHT RATING 0.9kg</p>		<p>SCAN TO ORDER</p>
--	---------------------------------------	--	-----------------------------

ATTACHES TO ANY HARD HAT

Secures to accessory slot of suspension
