Squids 3405 Grabber with Belt Clip

- » **KEEPS GEAR CLOSE** – Holds face masks, gloves, keys, PPE, towels and more keeping them at the ready
- » **STRONG GRIPPING CLIP** – Easy to open and stays firmly closed on your gloves or other gear
- » **DURABLE** – Ultra-resilient acetal copolymer and thermoplastic polyurethane materials are non-conductive and temperature resistant
- » **BREAKAWAY DESIGN** – For safety around moving parts or other catch hazards
- » **PREVENTS DROPPED & LOST OBJECTS** – Reduces injuries and prevents dropped, lost and foreign objects by keeping gloves, PPE and other gear clipped to the person
- » **BREAK STRENGTH** – Average breaking strength: 11.8kg

The **Squids 3405 Glove Clip Holder with Belt Clip** keeps your face masks, gloves, ice traction, cooling towels, keys and whatever else always seems to mysteriously disappear close at hand. This slot mounted glove clip keeps items at your side by clipping onto your belt or harness. The design has a breakaway feature that allows the glove grabber to safely break away in an emergency and avoid tangles. But what sets the Squids Glove Clip Holder apart from the rest is its ability to be put back together and used again. Other similar products break when separated and need to be trashed. The strong gripping jaw can hold on to gloves, hats, keys, towels and other PPE that are too bulky to fit in pockets. Ideal for those who work in construction, warehouses, manufacturing, food processing plants, janitorial and even retail workers. Keeps gloves and other gear handy for off-the-clock use, too, like hunting, hiking, home projects and more. Acetal copolymer construction is non-conductive, temperature and chemical resistant. To use, slide the belt clip over belt or waistbands, squeeze the sides of the clip to open the teeth on grabber end to attach to gear. The opening of the grabber's teeth is 1.3cm.

STRONG GRIPPING CLIP

Easy to open but stays firmly closed on gear and fits around standard tool belts

PATENTED BREAKAWAY DESIGN

For safety around moving parts or other catch hazards

KEEPS GEAR CLOSE

Holds gloves, keys, PPE, towels and more

MULTIPLE COLOURS AVAILABLE

Non-conductive and temperature-resistant materials with a break strength of 11.8kg

DIMENSIONS
15.2 x 2.5 x 2.5cm

WEIGHT RATING
11.8kg
