

ACCESSORIES

Drop Free Zone 3701 Mini Adhesive Mount Replacements 0.9kg - 10 Pack

4-way anchor point option allows for easy tethering from any angle

- » **DURABLE TAPE** - Utilise double-sided and high-strength 3M™ VHB™ pads to securely attach to items
- » **MULTIPLE CONNECTION POINTS** - A 4-way anchor point option allows for easy tethering from any angle
- » **WEATHER RESISTANT** - Adhesive pads are high/low temperature resistant and waterproof
- » **VERSATILE ATTACHMENT** - Adheres to a variety of materials including metal, silicone, glass and plastics
- » **CLEAN REMOVAL** - Adhesive mounts do not leave residue when removed
- » **LOW PROFILE & LIGHTWEIGHT** - Reduces snag hazards and excess weight
- » **ONE TIME USE** - Adhesive mounts are single use only

The **Squids 3701 Mini Adhesive Mount Replacements - 10-Pack** are designed to safely tether devices and accessories up to 0.9kg. Using high-strength and double-sided 3M VHB tape, the mini adhesive mounts easily attach to items such as cell phones, cameras, hand tools and other accessories to keep them close and ready while also preventing drops. Compatible with Squids 3151 Coil Lanyard for tethering accessories.

Designed for ultimate durability and one-time use, the adhesive mounts use double-sided 3M VHB tape. This tape is waterproof and high/low temperature resistant for long-lasting use in a variety of conditions. When adhered, the tape creates a permanent bond onto a variety of materials, including metal, glass, silicone and plastics.

These mounts are great for all types of everyday use, including worksites or weekend activities.

Lanyard sold separately

DIMENSIONS
2.3 - 2.3cm

WEIGHT RATING
