A convenient way for the worksite to replenish electrolytes.

Sqwincer® Liquid Concentrate (500ml) is designed to help replenish fluids and electrolytes, keeping people going. Liquid concentrates mix readily with water with unique formulations designed to help reduce the fatigue and cramping associated with working in hot environments. When you need quick hydration on the job, reach for the unique drinkable electrolyte solution designed to help you replace what the body sweats out. Sqwincer Liquid Concentrate is the perfect choice for anyone looking to quickly and easily replenish their electrolyte levels.

This concentrated liquid formula contains a precise balance of electrolytes to give your body the energy and hydration it needs in order to perform at its best. Made with high-quality ingredients to provide optimal hydration, this concentrated liquid format makes it easy to mix with water, and with 500ml of concentrate, you can make up to 5L of electrolyte drink. Sqwincer Concentrate is the perfect choice for athletes, workers, and anyone looking for a convenient, great-tasting way to stay hydrated. Sqwincer is a healthy and convenient way to keep your energy levels up and your body functioning at its best.

EDUCATING WORKERS TO THE DANGER OF DEHYDRATION

- DECLINE IN PRODUCTIVITY**
Mild dehydration, loss of 2% body mass or more can cause a decrease in performance of up to 50%. Symptoms create dangerous working environments.
- HEAT INJURY OR ILLNESS**
Heat injury or illness can take hold if you don't drink enough while you're active and perspiring heavily. Injuries and illnesses range from mild heat cramps to heat exhaustion and life-threatening heatstroke.
- URINARY AND KIDNEY PROBLEMS**
Urinary and kidney issues can arise after repeated or prolonged periods of dehydration. Common issues include urinary tract infections, kidney stones, and kidney failure.
- HYPOVOLEMIC SHOCK**
One of the most serious and life-threatening complications arising from dehydration is hypovolemic shock, or low blood volume shock. It happens when you lose more than 20% of your blood or fluid supply, which prevents the heart from pumping enough blood to keep the body running.
- SEIZURE AND LOSS OF CONSCIOUSNESS**
It can lead to organ failure and requires immediate emergency medical attention.
- DECREASED COGNITIVE AND MOTOR SKILLS**
Dehydration reduces concentration and reaction time, resulting in decreased cognitive and motor skills. Studies show that it only takes 2 percent dehydration to cause impaired performance in tasks that require attention, motor, and memory skills.

Sqwincer® is an electrolyte enhanced beverage for effective hydration and is the recognised leader in providing hydration solutions to hot workplaces, to help reduce heat related illness and accidents. Keep your workers safe & productive with Sqwincer® hydration that works.
