

ERGONOMICS

Protection where you need it!

ProFlex® 435 Comfort Hinge Gel Knee Pads - Long Hard Cap

- » **MOVES WITH YOU** - Comfort Hinge™ design matches your movement for enhanced comfort, fit and stability
- » **BUILT TO LAST** - Abrasion-resistant cap and durable buckles for long-lasting use on tough worksites
- » **ALL-DAY GEL COMFORT** - Supportive gel and NBR foam protects knees on rough surfaces
- » **BEST COMBINATION OF GRIP AND SLIDE** - Large slip-resistant hard rubber cap provides traction while still allowing workers to move smoothly and safely
- » **NON-MARRING** - Will not scratch or mark surfaces
- » **STAYS IN PLACE** - Hinge design, strategically located straps and durable locking buckles prevent knee pads from sliding
- » **ADJUSTABLE** - Thick elastic straps easily adjust for custom fit
- » **TRUSTED BY THE EXPERTS** - Designed and tested to be used by airline baggage handlers, some of the industry's most demanding knee pad users

The **ProFlex 435 Comfort Hinge Gel Knee Pads** improve upon our best-selling 335 Knee Pad design by adding an innovative hinged technology that enhances comfort, fit and stability. The hinge enables the knee pad to easily bend and straighten along with the leg's natural movements. Combined with locking-buckle elastic straps that sit higher and lower on the leg, these knee pads are specifically engineered to stay in place, for all-day comfort and support, these pads are cushioned with gel and NBR foam. The extended height of the Comfort Hinge™ pad also adds another layer of protection against impacts to the thigh. The abrasion-resistant non-marring hard rubber cap moves smoothly across floors without slipping or damaging surfaces, delivering the best combination of grip and slide for workers on the move. Durable locking buckles securely latch to keep these knee pads comfortably in place through repetitive use on the toughest worksites. Wide elastic straps easily adjust for a custom fit on a variety of leg sizes.

STAYS IN PLACE

Hinge design, locking buckles hook and loop straps keep pads in place

ULTRA-PLUSH LIGHTWEIGHT GEL FOAM

Gel plush EVA foam cushions, supports and bounces back for long lasting use

STABILITY & MOBILITY

Non-marring rubber caps provides traction without damaging surfaces

COMFORT HINGE TECHNOLOGY

Bends and straightens with you for enhanced comfort, fit and stability
