

A COMPLETE WORKSITE SUNSCREEN SOLUTION

PROTECT YOUR WORKSITE AGAINST THE DAMAGING SUN

**maxi
block**

Australia and New Zealand have very high levels of UV radiation. That's why it is important to protect yourself against these damaging sun rays with well formulated sunscreen. **Maxiblock** protects workers from both UVA and UVB sun rays.

Real protection is true value.

SUNSCREEN

Maxiblock Essential Range

- » Non greasy sunscreen, free from ethanol, fragrance or mineral oil
- » Cost effective for worksites
- » Features dry touch technology for a light natural skin feel
- » Contains 4% avobenzone (UVA filter)
- » Skin-friendly dermatologically tested formula
- » SPF50+ very high protection UVA and UVB broad spectrum
- » Australian made and designed for harsh conditions

Experience the non-greasy SPF50+ lotion of the **Essential Range**, designed to be the perfect companion for worksites. Its formula forms a reliable barrier against the sun's intensity. With its easy application and non-irritating formula, Maxiblock Essential Range ensures comfort without compromising on effectiveness.

Discover the versatility of the Maxiblock Essential Range, available in various convenient packaging and sizes. From handy personal lip balms to tubes of 100ml and 200ml and pump bottles of 500ml and 1L, it's effortless to apply and reapply throughout the day. For adult application, a minimum of 35ml is recommended: 5ml (a teaspoon) for the face (including ears and neck), each limb, the back, and the front of the body. Apply generously to clean, dry skin, ensuring even coverage at least 20 minutes before sun exposure. Reapply every 2 hours to maintain optimal protection.

Maxiblock sunscreens are priced affordably, aiming to safeguard everyone from the harshest sun. Invest in your skin's well-being with Maxiblock, the trusted choice for Australian sun protection.

SUNSCREEN INSECT REPELLENT

Maxiblock Outbacker Range

- » SPF50+ / UVA & UVB broad spectrum
- » Cost effective for worksites
- » 4 hours water and sweat resistant
- » Effective against flies and mosquitoes
- » Skin-friendly dermatological tested formula
- » APVMA approved / compliant with latest 2012 TGA standard
- » Australian Made and designed for harsh conditions

Maxiblock, an Australian brand trusted since 1979, presents the **Outbacker Range**, a sunscreen that combines SPF50+ protection with insect repellent. When you need reliable defense against the harsh sun and bothersome insects like flies and mosquitoes, turn to Maxiblock Outbacker. This lightweight lotion offers a unique dual-action formula that effectively shields you from both sun damage and insect bites.

Maxiblock Outbacker combines the benefits of sunscreen actives with potent insect repellents, featuring 7.2% DEET for effective mosquito and fly protection. It also contains 5% avobenzone, a UVA filter, providing broad-spectrum defense against both UVA and UVB rays. The product complies with the regulations set by APVMA (approval number 86717) and TGA (AUST L-310426), ensuring its quality and effectiveness.

Choose Maxiblock Outbacker for reliable protection against the sun and insects. With our commitment to producing premium Australian-made products, you can trust that your worksite will remain shielded from the damaging effects of the sun.
