The versatile dual clip version can be used as one unit or detached, clipped to d-rings and used as two separate pieces. The design has a breakaway feature that allows the glove grabbers to safely break away in an emergency. Ideal for those who work in construction, warehouses, manufacturing, food processing plants, janitorial and even retail workers. Keeps gloves and other gear handy for off-the-clock use too, like hunting, hiking, home projects and more. To use, squeeze the sides of the gear clip to open the teeth on one end and attach to the desired location (belt loop, clothing, D-ring, other anchor points). Repeat on the other end of the clip to attach to gear.
