- » **MULTIPLE SIZES** – Available in four sizes
- » **FLEXIBLE GRIP** – Grips tool securely for reliable attachment point
- » **SINGLE-USE** – Intended for one-time application

The **Squids 3740 Hand Tool Attachment Trap Slips** are designed to significantly enhance workplace safety by providing secure retrofit tethering points for small hand tools. These innovative attachments meet the stringent ANSI/ISEA 121-2018 standard and are third-party certified to support tools weighing up to 0.45kg. The Tool Trap Slips feature a simple, one-piece design that easily slides onto the tool. This design includes a swiveling exterior ring that serves as a versatile connection point for tool lanyards, allowing tools to rotate freely without the risk of entanglement. To install the Slips, puncture the membrane and effortlessly slide the attachment onto the tool. The star points inside the attachment grip securely hold the tool in place during use. The Slips come in four different sizes to accommodate tools with diameters ranging from 1.3mm (S) to 12.0mm (XL). This versatility makes them a valuable addition to any workplace where dropped objects pose a safety risk, boosting both worker safety and productivity.

MULTIPLE SIZES FOR VARIOUS TOOLS

	S	1.3-4.0mm	0.11kg
	M	4.0-5.5mm	0.23kg
	L	5.5-8.0mm	0.34kg
	XL	8.0-12.0mm	0.45kg

Multi-size compatibility, fits tools ranging from 1.3mm to 12.0mm diameter

SWIVELING ATTACHMENT POINT

Prevents tangles and binds when used with a tool lanyard
